DETAILED ACTION

CLAIMS PRESENTED

Claims 1-34 are presented.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a type of wobbled pre-pit type as part of a recording medium, classified in class 369, subclass 275.4.
- II. Claims 11-34, drawn to copy protection techniques, classified in class 380, subclass 202.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination I has separate utility such as copy protection without necessarily using the wobbled groove, pit, structure specifics. See MPEP § 806.05(d).

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
